

## Surgical interventions with night admission

Your doctor has already informed you about the procedure, the risks and possible alternatives, answering any questions about these aspects. Please follow the detailed recommendations below:

Previous Information	
Place	Av. Foix 63, Surgical Admissions ( <i>Admisiones Quirúrgicas</i> )
Time	You should arrive <b>1 hour</b> before the operating room time
Duration of the procedure	Night admission
Company	Please make sure to come accompanied by a companion
Additional data	Please remember to bring the preoperative analysis

Medical instructions	
Pre-operative preparation	Do not consume liquids and solids for <b>6 hours</b> prior to the procedure
	If you take medication, please seek advice from your doctor about how to proceed. It's important to bring any current medication with you, when attending the hospital
	Please remove all metal containing objects including (Chains, Jewellery, Watches or Piercings) and Nail Polish prior to entering the operating room
	All prostheses including (Contact Lenses and False Teeth) must be removed, or if not possible please inform us
	On the day of the procedure, please shower or wash your whole body. Please do not use lotions or makeup
	If there is body hair located within the procedure location, please make sure to remove prior to the procedure
	If you have a <u>Fever, Sore Throat, Tooth Problems or any sign of an infection on the day or 3 days prior to the procedure</u> , please contact us immediately and inform us of your condition

Other comments	
If your procedure requires orthopedic material, remember to bring this with you or it will be changed at the clinic (immobilisers, crutches, surgical shoes, girdles etc)	
If your companion wishes to spend the night in the hospital, please contact us to request more information
